OUR GALLERIES

Cardiff in Context is on the ground floor. It has low lighting, background noise and games with smells.

If you need the lighting or noise levels changed, please talk to a member of staff.

Our City Lab gallery is in the basement.

We have a lift to get between the ground floor and the basement if you need it.

Or you can use the stairs.

The City Lab gallery has bright lights and our exhibitions often change so the layout sometimes look different.

There is a children's play area which can sometimes be noisy.

There are action stations which can also get busy, especially when we have school groups visiting.

There is a small temporary exhibition space at the back of the basement. The objects and stories change here often.

EVENTS

Every Wednesday throughout the school holidays we have an arts and crafts day which can get busy.

On the second Friday of each month we have a toddler day. We play instruments and make a lot of noise in the play area in the basement.

TOILETS

There is a gender neutral toilet on the ground floor.

There are male and female toilets, an accessible toilet and a baby change in the basement.
